New Delhi,

Date:

14 JUN 2022

To

All State/UT Drugs Controllers,

Sub: Prescribing Information Leaflet change for “Docetaxel” marketed in the country- Reg.

Sir,

The National Co-ordination Centre for Pharmacovigilance Programme of India (NCC-PvPI), functioning at IPC, Ghaziabad has forwarded their recommendation based on ADR reports on Docetaxel which was discussed by them in the 9th Signal Review Panel (SRP) under the programme meeting held on 29th Nov, 2016 with an objective to detect Signal/Prescribing Information Leaflet change from Indian database and promote patient safety.

In the meeting, PvPI has evaluated the reported ADRs for Docetaxel on the basis of Individual Case Study Reports (ICSRs) and recommended CDSCO to take necessary steps to incorporate **Candidiasis** as an adverse event in the Prescribing Information Leaflet (PIL) of Docetaxel marketed in the country.

Subsequently, PvPI recommendations was deliberated in the Subject Expert Committee (SEC-Oncology & Haematology) meeting held on 26.05.2022 at CDSCO (HQ), New Delhi.

After detailed deliberation, the committee recommended that CDSCO should request the State Drugs Controllers to direct the manufacturers of the drug to include **Docetaxel associated Candidiasis** as an adverse event in the package insert of the drug as suggested by PvPI.

The recommendation of the SEC has been considered by this office.

Accordingly, you are requested to direct the manufacturers of Docetaxel under your jurisdiction to incorporate **Docetaxel associated Candidiasis** as an adverse event in the package insert/promotional literature of the drug.

Action taken in this regard may be intimated to this office.

Yours faithfully,

Dr. V.G. Somani
Drugs Controller General (India)
